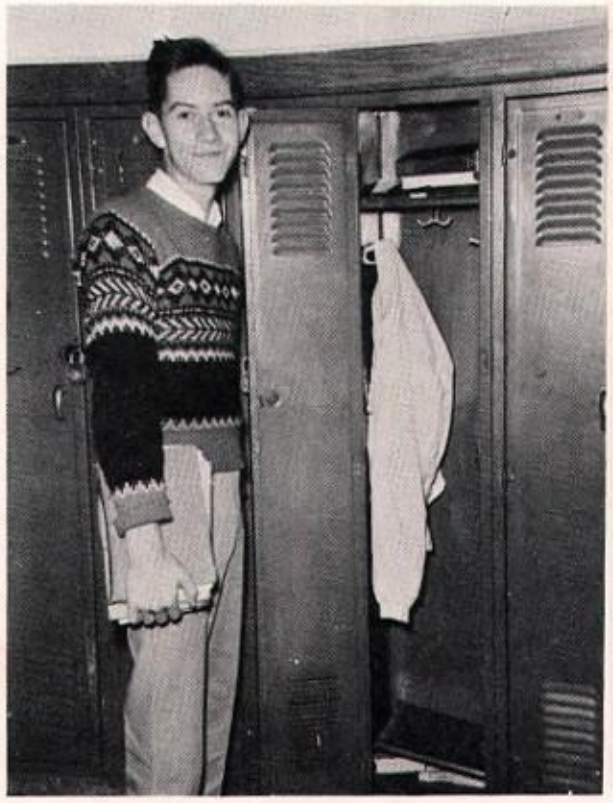
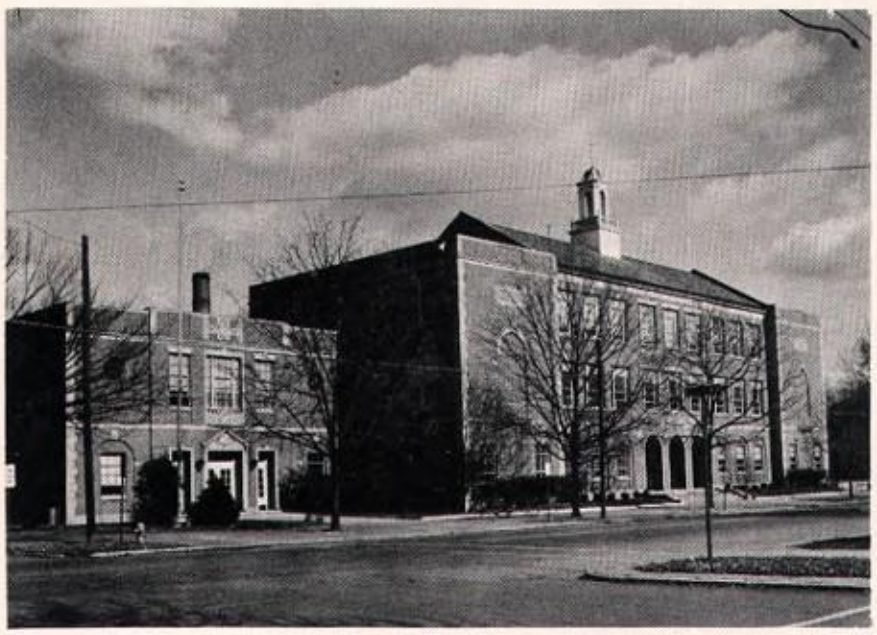
Volume 32

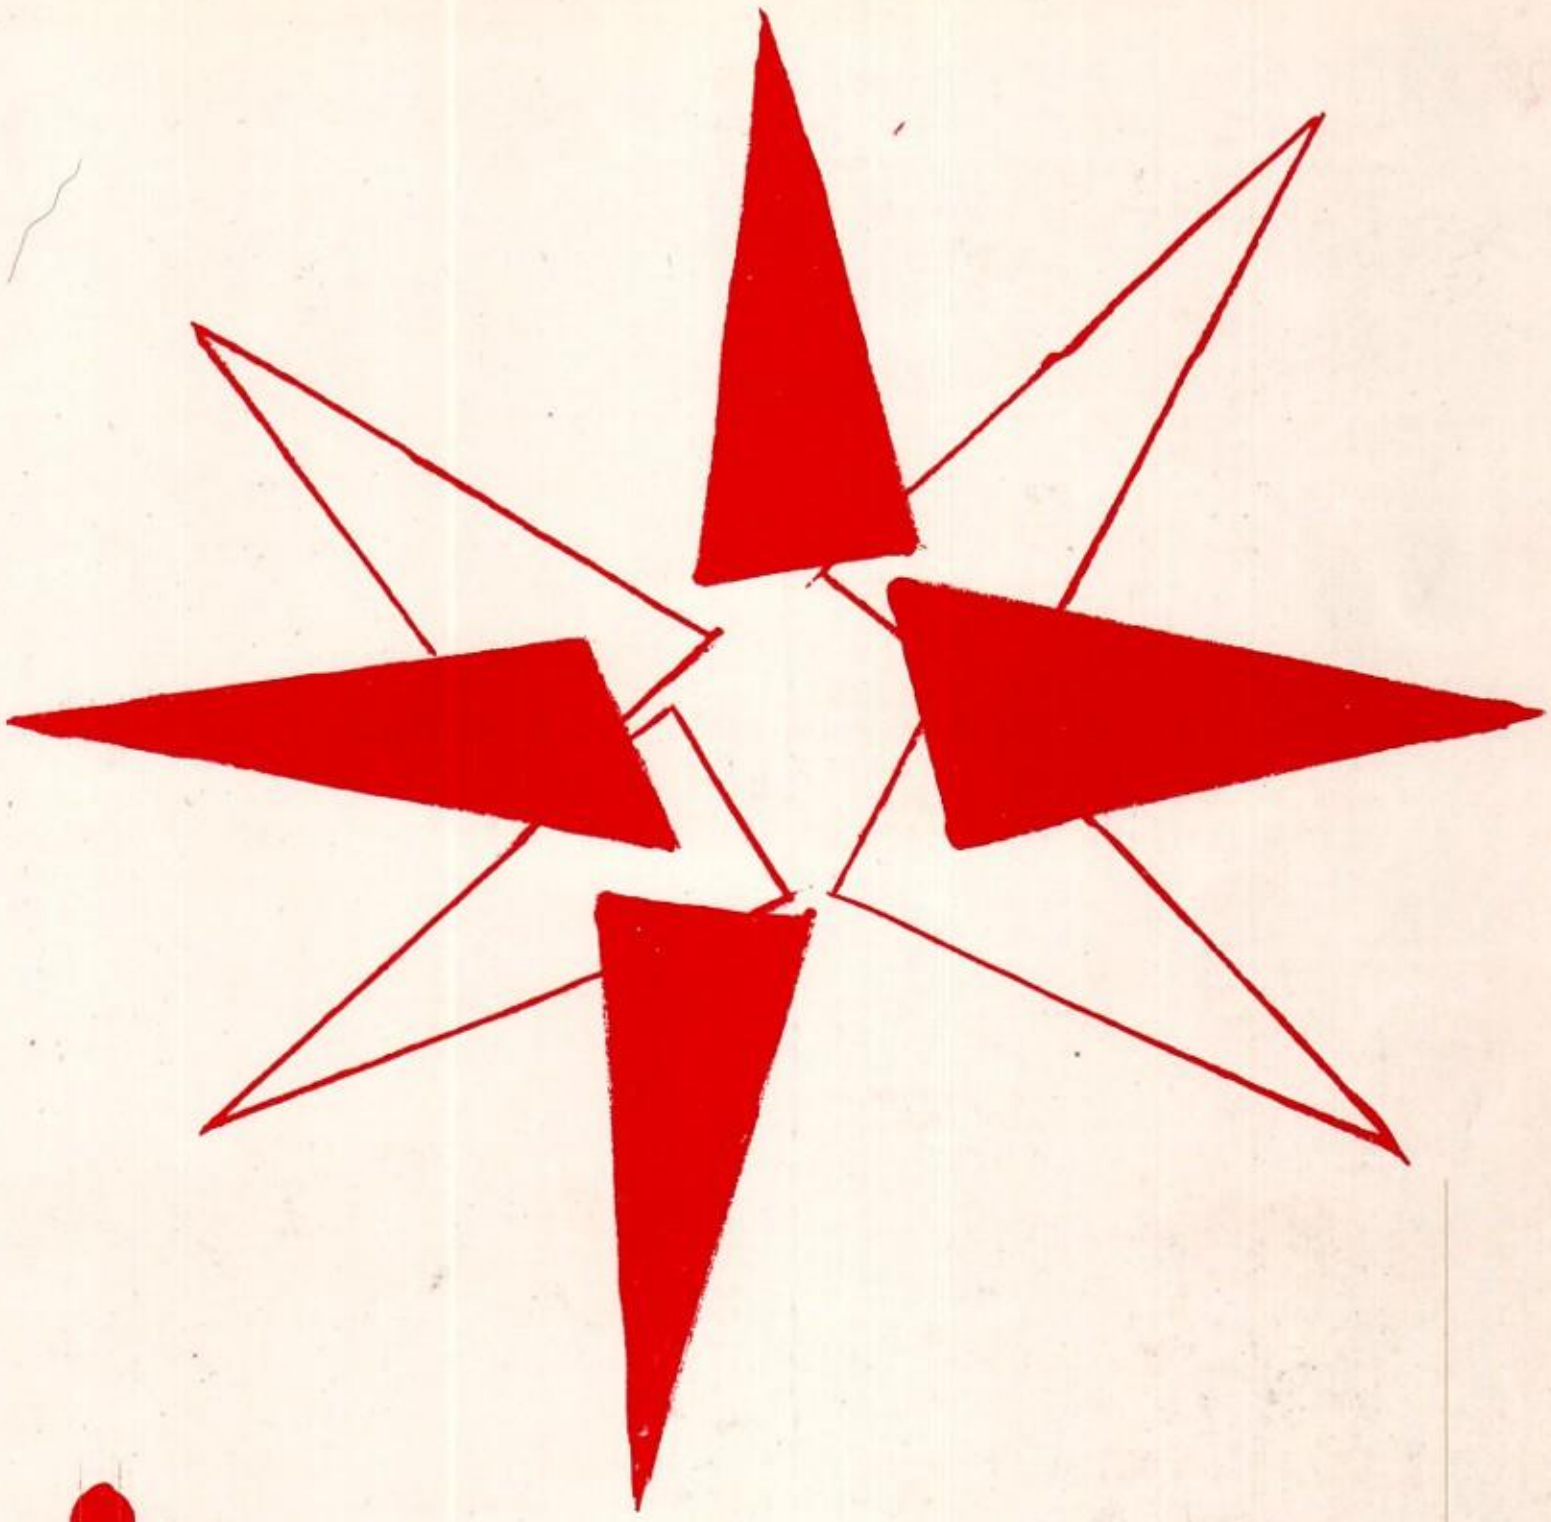


From the roomy to the crowded.



From the panther to the pacer.

From the old to the new.



as'ter-isk (ăs' tĕr ĭsk), n. (L. asteriscus, fr. Gr. asteriskos, dim. of astēr, star) The figure of a star, thus *, used in printing and writing as a reference to a passage or note in the margin... or to mark a word or phrase as having special character.

We feel that this year has had a special character because of the numerous changes which have occurred in the high school. Some of these changes are illustrated on the previous page, the transition to the loaded locker (they were already full enough), the hopeful hop to Hayes High, and the substitution of Peppy Pacer for Willy Panther (not only did he bring a new look but new luck as well).

This year has had as characteristics many confusing circumstances, many changes necessitated by our schedule, many complaints and many compliments. All these are depicted in our calendar section which follows.

The Delhi's "new look" for this year is an exciting attempt to capture the unusual and interesting events of this year as they happened rather than simply picturing the same groups as in past years.

We have adopted the asterisk as a symbol of emphasis and as a variation we are employing the star as a symbol of change, not only for this year but for the book as well.

The purpose of the Chronicle is to portray the year's events as they happened rather than merely to picture various club members. This departure from past yearbooks is intended to make a more meaningful book by showing many important events as they occurred and those people who were closely associated with them.

The Freshman, Sophomore, and Junior Classes are placed throughout the Chronicle with the idea that everyone contributed to the year's activities and the school community.

JUNIOR HIGH

Administration

MR. EARL WALSH, Principal

MRS. LAWRENCE WELLS, Secretary

The Junior High School of 1961-1962 by no means lacks the problems of the previous year; however, under the careful supervision of Mr. Walsh, Principal, the nine period afternoon schedule runs with little confusion. Four hundred and sixty students walk the halls from 12:03 to 5:05 with a wide-awake look not found in the morning classes of Senior High.

Much devoted time and work has been put forth by Mr. Walsh and Mrs. Wells. As Principal Mr. Walsh's main duties are centered around administration and supervision of Junior High School. Co-ordinating all factors of the school institution, programming, scheduling and even managing the milk market make up his busy day. Hidden behind the scenes is perky Mrs. Wells, secretary and receptionist in the Junior High office. Her duties of clerical work, recording, and attendance take much time and hard work. Appreciation is extended to these two for their successful operation of the Junior High in this highly complicated year.

This year's faculty was made up of twenty-five teachers, six of whom were new. Students were divided into cores according to ability--nineteen cores in all. The Junior High teachers cheerfully and successfully completed the "matinee program" of the Delaware City Schools.
